PROFILE

A fresh computer science graduated from SEU with solid programming expertise and enthusiasm for creativity. Efficient in acquiring new concepts, with a focus on continuous improvement. Interested in multi-platform development, data analysis, and AI. Seeking opportunities to contribute and advance my professional growth.

EDUCATION

Saudi Electronic University,
Bachelor's degree, Computer Science, SEU
2022 – 2026 | Al-Ahsa, Saudi Arabia
GPA: 3.43/4.0 | Graduated with **Second Honor**.

Courses from King Fahd University of Petroleum and Minerals, KFUPM
Dhahran

Studied Bachelor's in Mathematics at KFUPM and finished more than 86 credit hours in the program.

Projects

- **Mobile Application:** Developed an adaptive Android app for **multi-level** mathematics testing and assessment.
- **Web Development:** Developed a **platform** streamlining communication between owners and adopters for pet placement.
- **Data Analysis:** Built a full **Python** workflow to clean, visualize, and classify **41,000+** Saudi hospital records.
- **Database Systems:** Architected secure database systems across Relational, **NoSQL**, and Object-Oriented models.

Courses

- Computer Graphics
- Mobile Computing
- Computer Security
- Artificial Intelligence
- Mathematics Courses

EXPERIENCE

Web Development

- Developed a **Python/Flask** web tool using FFmpeg for high-performance video splitting and processing.

Data Analytics Trainee,

Rumaila Society Charity

- **Volunteer Engagement:** Analyzed recruitment and retention patterns to deliver actionable insights and boost activity levels.
- **Program Impact:** Engineered **cost-effectiveness metrics** and impact reports to demonstrate program value to stakeholders.
- **Community Assessment:** Performed trend analysis on beneficiary data to pinpoint underserved populations and guide strategy.
- **Operational Efficiency:** Identified bottlenecks via resource tracking and engineered efficiency metrics to optimize output.

Game Development

- Built a **Unity C#** Android game featuring projectile mechanics and currency-based progression.
- Developed a **UEFN** experience using **Verse** to script wave-based logic and survival mechanics.

Tutor

- Mentors students by translating advanced academic topics into simplified language.

SKILLS

Soft Skills

- Teamwork
- Problem solving
- Effective Communication
- Time Management
- Adaptability
- Critical Thinking

Technical Skills

- C++
- C#
- Unreal Engine 5
- Unity Engine
- Java
- MySQL
- Microsoft Office
